SUBJECT INDEX, VOLUME 152

Abdomen
Active observation in acute abdominal pain, 522
Beneficial use of an evocative test in chronic relapsing pancreatitis in children, 628
Direct portacaval anastomoses are safe and effective in patients with previous abdominal operations, 722
General surgical procedures in renal allograft recipients, 717
Microscopic transduodenal sphincteroplasty and transampullary septoplasty for papillary stenosis, 621
Mortality from ruptured abdominal aortic aneurysms. A comparison of two series, 27
Options in the management of perforations of the esophagus, 62
Planned reoperation for generalized intraabdominal infection, 682
Polydioxanone in digestive surgery. An experimental study, 268
Primary retroperitoneal sarcomas, 496
Significance of omental evisceration in abdominal stab wounds, 670
Single agent cephalosporin prophylaxis for penetrating abdominal trauma. Results and comment on the emergence of the enterococcus, 674
Sugiura procedure outside Japan. The Mexican experience, 539
Acquired immunodeficiency syndrome
Cell-saver and autologous transfusion: an underutilized resource in vascular surgery, 105
Initial manifestation of acquired immunodeficiency syndrome in the head and neck region, 403
Acute phase reaction
Effect of the acute phase reaction on blood viscosity after infrainguinal arterial bypass, 158
Adenocarcinoma
Occult primary adenocarcinoma with axillary metastases, 43
Adenoma
Adenoma weight: a predictor of transient hypocalcemia after parathyroidectomy, 611
Primary aldosteronism: changing concepts in diagnosis and management, 116
Unfamiliar aspects of familial polyposis coli, 81
Adolescents
Soft tissue sarcomas of the head and neck in adolescents and adults, 386
Adult respiratory distress syndrome
Guidelines for weaning from positive end-expiratory pressure in ventilated patients, 687
Aganglionosis
Diagnosis and management of Hirschsprung's disease. A 25 year perspective, 49
Agranulocytosis
Managing the granulocytopenic patient with acute perianal inflammatory disease, 510
AIDS
Initial manifestation of acquired immunodeficiency syndrome in the head and neck region, 403
Alcohol
Emergency portacaval H graft in alcoholic cirrhotic patients: influence of shunt diameter on clinical outcome, 290
Aldosteronism
Primary aldosteronism: changing concepts in diagnosis and management, 116
Alimentary tract
A randomized, double-blind trial of single dose piperacillin versus multidose cefoxitin in alimentary tract operations, 517
Allografts
General surgical procedures in renal allograft recipients, 717
Amaurosis fugax
Carotid endarterectomy for amaurosis fugax without angiography, 172
Amebiasis
Necrotizing amebic colitis: a frequently fatal complication, 21
American Board of Surgery
Head and neck surgery: the province of whom? (E), 475
Societal forces on surgery (E), 568
American College of Surgeons
Societal forces on surgery (E), 568
American Medical Association Council on Medical Education
Societal forces on surgery (E), 568
American Surgical Association
Societal forces on surgery (E), 568
Amputation
Amputation after extremity injury, 260
Anastomosis
A 7 year experience with low anterior sigmoid resections using the EEA stapler, 11
Anesthesia
Detailed comparison of regional and general anesthesia for carotid endarterectomy, 691
Intraoperative local anesthetic injection of the carotid sinus nerve. A prospective, randomized study, 695
Aneurysm
Mortality from ruptured abdominal aortic aneurysms. A comparison of two series, 27
Occlusion of a hepatic arterial aneurysm with Gianturco coils in a patient with the Ehlers-Danlos syndrome (CR), 326
Angioaccess
Comparison of autogenous fistula versus expanded polytetrafluoroethylene graft fistula for angioaccess in hemodialysis, 238
Angiography
Carotid endarterectomy for amaurosis fugax without angiography, 172
Angioscopy, video
Video angioscopy as an alternative to intraoperative arteriography, 139
Anomalies
Variations and anomalies of the popliteal and tibial arteries, 531

Antibiotics
A randomized, double-blind trial of single dose piperacillin versus multidose cefoxitin in alimentary tract operations, 517
Managing the granulocytopenic patient with acute perianal inflammatory disease, 510
Newer antibiotics for the surgeon (E), 577
Single dose prophylaxis in elective cholecystectomy. A prospective, double-blind randomized study, 513
Single-dose systemic antibiotic prophylaxis of surgical wound infections, 552
Antibodies, monoclonal
Unique proteins defined by monoclonal antibodies specific for human melanoma. Some potential clinical applications, 376
Anus
Management of carcinoma of the rectum and anus without abdominoperineal resection, 16
Managing the granulocytopenic patient with acute perianal inflammatory disease, 510
Aorta
Cumulative patency and actual palliation in patients with claudication after aortofemoral bypass. Prospective long-term follow-up of 100 patients, 190
Extraperitoneal iliac endarterectomy in the treatment of multilevel lower extremity arterial occlusive disease, 34
Mortality from ruptured abdominal aortic aneurysms. A comparison of two series, 27
Traumatic rupture of the aorta: still a lethal injury, 660
Appendicitis
Active observation in acute abdominal pain, 522
Appendix
Single-dose systemic antibiotic prophylaxis of surgical wound infections, 552
Arms
Amputation after extremity injury, 260
Ischemia of the upper extremity: significance of proximal arterial disease, 122
Pathogenesis determines late morbidity of axillosubclavian vein thrombosis, 179
Army
MASH, military medicine, and beyond: mainstream or tributary? (E), 2
Arteries
Arteriography performed in the emergency center, 323
Carotid endarterectomy for amaurosis fugax without angiography, 172
Cell-saver and autologous transfusion: an underutilized resource in vascular surgery, 105
Detailed comparison of regional and general anesthesia for carotid endarterectomy, 691
Direct portacaval anastomoses are safe and effective in patients with previous abdominal operations, 722
Effect of inflow and outflow sites on the results of tibioperoneal vein grafts, 211
Effect of quantitated stenoses on arterial sound spectrum analysis, 196
Effect of the acute phase reaction on blood viscosity after infrainguinal arterial bypass, 158
Extraperitoneal iliac endarterectomy in the treatment of multilevel lower extremity arterial occlusive disease, 34
Factors affecting initial and 6 month patency rates after intraarterial thrombolysis with high-dose urokinase, 709
Infrapopliteal bypasses to heavily calcified rock-like arteries. Management and results, 220
Intraarterial chemotherapy and hyperthermia for pain control in patients with recurrent rectal cancer, 597
Intraoperative local anesthetic injection of the carotid sinus nerve. A prospective, randomized study, 695
Ischemia of the upper extremity: significance of proximal arterial disease, 122
Is external carotid endarterectomy a durable procedure? 700
Localized intraarterial streptokinase therapy, 252
Occlusion of a hepatic arterial aneurysm with Gianturco coils in a patient with the Ehlers-Danlos syndrome (CR), 326
Operative closure of patent ductus arteriosus in premature infants in the neonatal intensive care unit, 704
Relationship of extracranial carotid occlusive disease and central retinal artery occlusion, 175
Sugiura procedure outside Japan. The Mexican experience, 539
Supine exercise testing in the selection of suprainguinal versus infrainguinal bypass in patients with multisegmental arterial occlusive disease, 185
Surgical management of vascular malformations of the head and neck, 424
Variations and anomalies of the popliteal and tibial arteries, 531
Video angioscopy as an alternative to intraoperative arteriography, 139
Arteriography
Arteriography performed in the emergency center, 323
Video angioscopy as an alternative to intraoperative arteriography, 139
Autotransfusion
Cell-saver and autologous transfusion: an underutilized resource in vascular surgery, 105
Immunologic effects of blood transfusion upon renal transplantation, tumor operations, and bacterial infections, 329
Underutilization of autologous blood donation among eligible elective surgical patients, 483, 485
Axilla
Occult primary adenocarcinoma with axillary metastases, 43
Bacteria
Comparison of nonwoven and woven gown and drape fabric to prevent intraoperative wound contamination and postoperative infection, 505
Immunologic effects of blood transfusion upon renal transplantation, tumor operations, and bacterial infections, 329
Newer antibiotics for the surgeon (E), 577
Planned reoperation for generalized intraabdominal infection, 682
Postsplenectomy infection in patients with chronic leukemia, 583
Preoperative irradiation potentiation with cisplatin: effect on rate of wound infection, 446
Single agent cephalosporin prophylaxis for penetrating abdominal trauma. Results and comment on the emergence of the enterococcus, 674
Bigelow, Henry Jacob
From Mayo to Kirklin: riding on Bigelow's coattails (E), 245
Bile ducts
Liver atrophy complicating benign bile duct strictures. Surgical and interventional radiologic approaches, 294
Biliary stents
The many uses of the U tube, 616
Biopsy
Diagnostic accuracy of fine-needle aspiration biopsy versus frozen section in solitary thyroid nodules, 411
Fine-needle aspiration in the diagnosis of cervical lymphadenopathy, 420
Microscopic cut-through of cancer in the surgical treatment of squamous carcinoma of the tongue. Prognostic and therapeutic implications, 354
Blindness
Carotid endarterectomy for amaurosis fugax without angiography, 172
Relationship of extracranial carotid occlusive disease and central retinal artery occlusion, 175
Blood
Blood transfusions and surgery for cancer (E), 337
Cell-saver and autologous transfusion: an underutilized resource in vascular surgery, 105
Immunologic effects of blood transfusion upon renal transplantation, tumor operations, and bacterial infections, 329
Managing the granulocytopenic patient with acute perianal inflammatory disease, 510
Perioperative blood transfusion is associated with infectious complications after colorectal cancer operations, 479
Postsplenectomy infection in patients with chronic leukemia, 583
Underutilization of autologous blood donation among eligible elective surgical patients, 483, 485
Blood cells
Effect of the acute phase reaction on blood viscosity after infrainguinal arterial bypass, 158
Blood flow
Effect of the acute phase reaction on blood viscosity after infrainguinal arterial bypass, 158
Effort-related axillosubclavian vein thrombosis. A new theory of pathogenesis and a plea for direct surgical intervention, 57
Is external carotid endarterectomy a durable procedure? 700
Pathogenesis determines late morbidity of axillosubclavian vein thrombosis, 179
Blood pressure
Intraoperative local anesthetic injection of the carotid sinus nerve. A prospective, randomized study, 695
Blood recovery system
Cell-saver and autologous transfusion: an underutilized resource in vascular surgery, 105
Blood viscosity
Effect of the acute phase reaction on blood viscosity after infrainguinal arterial bypass, 158
B-mode imaging
Initial experience comparing B-mode imaging and venography of the saphenous vein before in situ bypass, 206
Bone
Craniofacial reconstruction after tumor resections using vascularized outer table calvarial bone flaps, 438
Is the treatment for thyroglossal duct cysts too extensive? 602
The role of sternum in osteomyocutaneous reconstruction of major mandibular defects, 367

Books
Book reviews, 48
Books received, 150, 340, 478
Boston Surgical Society
From Mayo to Kirklin: riding on Bigelow's coattails (E), 245
Breast
Occult primary adenocarcinoma with axillary metastases, 43
Breast feeding
Diagnosis and management of Hirschsprung's disease. A 25 year perspective, 49
Bronchus
Closure of bronchopleural fistulas by an omental pedicle flap, 40
Comparative studies of computerized tomography and mediastinoscopy for the staging of bronchogenic carcinoma, 587
Burns
Chondritis of the burned ear: a preventable complication, 257
Fluid resuscitation in thermally injured children, 664
Bypass, arterial
Cumulative patency and actual palliation in patients with claudication after aortofemoral bypass. Prospective long-term follow-up of 100 patients, 190
Current state of extraanatomic bypasses, 202
Effect of inflow and outflow sites on the results of tibioperoneal vein grafts, 211
Effect of the acute phase reaction on blood viscosity after infrainguinal arterial bypass, 158
Efficacy of femorofemoral bypass for intermittent claudication. Clinical and hemodynamic assessment, 215
Infrapopliteal bypasses to heavily calcified rock-like arteries. Management and results, 220
Salvage of ischemic diabetic feet. Role of transcutaneous oxygen mapping and multiple configurations of in situ bypass, 165
Supine exercise testing in the selection of suprainguinal versus infrainguinal bypass in patients with multisegmental arterial occlusive disease, 185
Bypass, venous
Effect of inflow and outflow sites on the results of tibioperoneal vein grafts, 211
Initial experience comparing B-mode imaging and venography of the saphenous vein before in situ bypass, 206
Saphenous alternative: preferential use of superficial femoral and popliteal veins as femoropopliteal bypass grafts, 231
Staged infrainguinal revascularization: initial prosthetic above-knee bypass followed by a distal vein bypass for recurrent ischemia. A valid concept for extending limb salvage? 224
Calcification
Infrapopliteal bypasses to heavily calcified rock-like arteries. Management and results, 220
Calcium
Adenoma weight: a predictor of transient hypocalcemia after parathyroidectomy, 611
Post-Thyroidectomy hypocalcemia. Incidence and risk factors, 606
Calculi
Demographic characteristics of gallbladder cancer in an area endemic for biliary calculi, 728
Calvarium
Craniofacial reconstruction after tumor resections using vascularized outer table calvarial bone flaps, 438
Cancer
A 7 year experience with low anterior sigmoid resections using the EEA stapler, 11
Blood transfusions and surgery for cancer (E), 337
Cervical lymph node metastasis after local excision of early squamous cell carcinoma of the oral cavity, 361
Combined modality therapy utilizing a cisplatin combination for effective chemotherapy in patients with previously untreated head and neck cancer, 451
Comparative studies of computerized tomography and mediastinoscopy for the staging of bronchogenic carcinoma, 587
Craniofacial reconstruction after tumor resections using vascularized outer table calvarial bone flaps, 438
Demographic characteristics of gallbladder cancer in an area endemic for biliary calculi, 728
Diagnosis and treatment of the inferior vena cava syndrome in advanced malignant disease, 70
Fine-needle aspiration in the diagnosis of cervical lymphadenopathy, 420
Flow cytometric analysis of DNA content as a prognostic indicator in squamous cell carcinoma of the tongue, 393
Groin dissection in malignant melanoma, 491, 495
Home support of patients with end-stage malignant bowel obstruction using hydration and venting gastrostomy, 100
Immunologic effects of blood transfusion upon renal transplantation, tumor operations, and bacterial infections, 329
Initial manifestation of acquired immunodeficiency syndrome in the head and neck region, 403
Intraarterial chemotherapy and hyperthermia for pain control in patients with recurrent rectal cancer, 597
Is the treatment for thyroglossal duct cysts too extensive? 602
Management of carcinoma of the rectum and anus without abdominoperineal resection, 16
Managing the granulocytopenic patient with acute perianal inflammatory disease, 510
Microscopic cut-through of cancer in the surgical treatment of squamous carcinoma of the tongue. Prognostic and therapeutic implications, 354
Neck dissection with and without radiotherapy: prognostic factors, patterns of recurrence, and survival, 456
Occult primary adenocarcinoma with axillary metastases, 43
Perioperative blood transfusion is associated with infectious complications after colorectal cancer operations, 479
Pharyngeal carcinoma and natural killer cell activity, 467
Post-Thyroidectomy hypocalcemia. Incidence and risk factors, 606
Predictive value of tumor thickness in squamous carcinoma confined to the tongue and floor of the mouth, 345
Primary retroperitoneal sarcomas, 496
Prognostic factors in patients with regional cervical nodal metastases from cutaneous malignant melanoma, 371
Prognostic value of initial mononucleated cell percentages in patients with epidermoid carcinoma of the head and neck, 487
Relation of thickness of floor of mouth stage I and II cancers to regional metastasis, 351
Results of surgical treatment for familial polyposis coli, 276
Routine colonoscopy in the management of colorectal carcinoma, 87
Significance of ploidy in laryngeal cancer, 396
Soft tissue sarcomas of the head and neck in adolescents and adults, 386
Surgical management of vascular malformations of the head and neck, 424
Surgical treatment for carcinoma of the pancreas. Experience in 272 patients, 499
Surgical treatment of pancreatic cancer (E), 503
Technique for placement of an implantable venous access system, 543
The role of sternum in osteomyocutaneous reconstruction of major mandibular defects, 367
Treatment of esophageal cancer: the continued need for surgical resection, 592
Unique proteins defined by monoclonal antibodies specific for human melanoma. Some potential clinical applications, 376
Valvuloplasty plus fundoplasty to prevent esophageal regurgitation in esophagogastrostomy after proximal gastrectomy, 314
Carcinoma
Cervical lymph node metastasis after local excision of early squamous cell carcinoma of the oral cavity, 361
Comparative studies of computerized tomography and mediastinoscopy for the staging of bronchogenic carcinoma, 587
Demographic characteristics of gallbladder cancer in an area endemic for biliary calculi, 728
Fine-needle aspiration in the diagnosis of cervical lymphadenopathy, 420
Flow cytometric analysis of DNA content as a prognostic indicator in squamous cell carcinoma of the tongue, 393
Is the treatment for thyroglossal duct cysts too extensive? 602
Management of carcinoma of the rectum and anus without abdominoperineal resection, 16
Microscopic cut-through of cancer in the surgical treatment of squamous carcinoma of the tongue. Prognostic and therapeutic implications, 354
Occult primary adenocarcinoma with axillary metastases, 43
Pharyngeal carcinoma and natural killer cell activity, 467
Post-Thyroidectomy hypocalcemia. Incidence and risk factors, 606
Predictive value of tumor thickness in squamous carcinoma confined to the tongue and floor of the mouth, 345
Prognostic value of initial mononucleated cell percentages in patients with epidermoid carcinoma of the head and neck, 487
Relation of thickness of floor of mouth stage I and II cancers to regional metastasis, 351
Routine colonoscopy in the management of colorectal carcinoma, 87
Surgical treatment for carcinoma of the pancreas. Experience in 272 patients, 499
Surgical treatment of pancreatic cancer (E), 503
Treatment of esophageal cancer: the continued need for surgical resection,

592
Carotid disease, extracranial
Relationship of extracranial carotid occlusive disease and central retinal artery occlusion, 175
Cartilage
Chondritis of the burned ear: a preventable complication, 257
Catheterization
Complications of parenteral nutrition, 93
Cefazolin
Newer antibiotics for the surgeon (E), 577
Cefonicid
Newer antibiotics for the surgeon (E), 577
Cefotaxime
Single agent cephalosporin prophylaxis for penetrating abdominal trauma. Results and comment on the emergence of the enterococcus, 674
Cefotetan
Newer antibiotics for the surgeon (E), 577
Cefoxitin
A randomized, double-blind trial of single dose piperacillin versus multidose cefoxitin in alimentary tract operations, 517
Newer antibiotics for the surgeon (E), 577
Single agent cephalosporin prophylaxis for penetrating abdominal trauma. Results and comment on the emergence of the enterococcus, 674
Ceftazadime
Newer antibiotics for the surgeon (E), 577
Ceftizoxime
Newer antibiotics for the surgeon (E), 577
Ceftriaxone
Newer antibiotics for the surgeon (E), 577
Cefuroxime
Newer antibiotics for the surgeon (E), 577
Cellotomy
Significance of omental evisceration in abdominal stab wounds, 670
Cells
Pharyngeal carcinoma and natural killer cell activity, 467
Prognostic value of initial mononucleated cell percentages in patients with epidermoid carcinoma of the head and neck, 487
Cephalosporin
Single agent cephalosporin prophylaxis for penetrating abdominal trauma. Results and comment on the emergence of the enterococcus, 674
Single-dose systemic antibiotic prophylaxis of surgical wound infections, 552
Cesarean section
Single-dose systemic antibiotic prophylaxis of surgical wound infections, 552
Chemical injury
Esophagocoloplasty for cicatricial stenosis after chemical injury, 265
Chemotherapy
Combined modality therapy utilizing a cisplatin combination for effective chemotherapy in patients with previously untreated head and neck cancer, 451
Demographic characteristics of gallbladder cancer in an area endemic for biliary calculi, 728
Intraarterial chemotherapy and hyperthermia for pain control in patients with recurrent rectal cancer, 597
Preoperative irradiation potentiation with cisplatin: effect on rate of wound infection, 446
Technique for placement of an implantable venous access system, 543
Treatment of esophageal cancer: the continued need for surgical resection, 592
Chest
Liberal use of emergency center thoracotomy, 654
Penetrating wounds to the anterior chest. Analysis of thoracotomy and laparotomy, 649
Children
Beneficial use of an evocative test in chronic relapsing pancreatitis in children, 628
Diagnosis and management of Hirschsprung's disease. A 25 year perspective, 49
Fluid resuscitation in thermally injured children, 664
Operative closure of patent ductus arteriosus in premature infants in the neonatal intensive care unit, 704
Cholangitis
The many uses of the U tube, 616
Cholecystectomy
Single dose prophylaxis in elective cholecystectomy. A prospective, double-blind randomized study, 513
Chondritis
Chondritis of the burned ear: a preventable complication, 257
Cirrhosis
Emergency portacaval H graft in alcoholic cirrhotic patients: influence of shunt diameter on clinical outcome, 290
Cisplatin
Combined modality therapy utilizing a cisplatin combination for effective chemotherapy in patients with previously untreated head and neck cancer, 451
Preoperative irradiation potentiation with cisplatin: effect on rate of wound infection, 446
Claudication
Cumulative patency and actual palliation in patients with claudication after aortofemoral bypass. Prospective long-term follow-up of 100 patients, 190
Efficacy of femorofemoral bypass for intermittent claudication. Clinical and hemodynamic assessment, 215
Colitis
Free colonic perforation without dilatation in ulcerative colitis, 272
Necrotizing amebic colitis: a frequently fatal complication, 21
Collagen synthesis
Occlusion of a hepatic arterial aneurysm with Gianturco coils in a patient with the Ehlers-Danlos syndrome (CR), 326
Colon
A 7 year experience with low anterior sigmoid resections using the EEA stapler, 11
Diagnosis and management of Hirschsprung's disease. A 25 year perspective, 49
Free colonic perforation without dilatation in ulcerative colitis, 272
Necrotizing amebic colitis: a frequently fatal complication, 21
New method of bowel stoma formation, 545
Occlusion of a hepatic arterial aneurysm with Gianturco coils in a patient with the Ehlers-Danlos syndrome (CR), 326
Perioperative blood transfusion is associated with infectious complications after colorectal cancer operations, 479
Polydioxanone in digestive surgery. An experimental study, 268
Results of surgical treatment for familial polyposis coli, 276
Routine colonoscopy in the management of colorectal carcinoma, 87
Single dose prophylaxis in elective cholecystectomy. A prospective, double-blind randomized study, 513
Single-dose systemic antibiotic prophylaxis of surgical wound infections, 552
Colonoscopy
Routine colonoscopy in the management of colorectal carcinoma, 87
Colostomy
New method of bowel stoma formation, 545
Computerized axial tomography
Comparative studies of computerized tomography and mediastinoscopy for the staging of bronchogenic carcinoma, 587
Computerized tomography in the evaluation of the late complications of acute pancreatitis, 286
Early computerized tomography as a predictor of outcome in acute pancreatitis, 127
Liver atrophy complicating benign bile duct strictures. Surgical and interventional radiologic approaches, 294
Congenital abnormalities
Congenital and acquired internal hernias: unusual causes of small bowel obstruction, 279
Diagnosis and management of Hirschsprung's disease. A 25 year perspective, 49
Surgical management of vascular malformations of the head and neck, 424
Continuing medical education
CME test, 148, 244, 338, 476, 562, 731
Cranium
Craniofacial reconstruction after tumor resections using vascularized outer table calvarial bone flaps, 438
Daniels, Albert C.
Obituaries, 146
Denervation, pancreatic
A new surgical approach for control of pain in chronic pancreatitis: complete denervation of the pancreas, 549
Deoxyribonucleic acid
Flow cytometric analysis of DNA content as a prognostic indicator in squamous cell carcinoma of the tongue, 393
Significance of ploidy in laryngeal cancer, 396
Diabetes
Salvage of ischemic diabetic feet. Role of transcutaneous oxygen mapping and multiple configurations of in situ bypass, 165
DNA
Flow cytometric analysis of DNA content as a prognostic indicator in squamous cell carcinoma of the tongue, 393
Significance of ploidy in laryngeal cancer, 396
Drainage
Computerized tomography in the evaluation of the late complications of acute pancreatitis, 286
Managing the granulocytopenic patient with acute perianal inflammatory disease, 510
Options in the management of perforations of the esophagus, 62
The many uses of the U tube, 616
Drapes
Comparison of nonwoven and woven gown and drape fabric to prevent intraoperative wound contamination and postoperative infection, 505
Ducts
Is the treatment for thyroglossal duct cysts too extensive? 602
Microscopic transduodenal sphincteroplasty and transampullary

septoplasty for papillary stenosis, 621
Operative closure of patent ductus arteriosus in premature infants in the neonatal intensive care unit, 704
Duodenum
Jejunal interposition gastroduodenostomy with automated suturing devices, 320
Dyspepsia
Clinical results of reoperation after failed highly selective vagotomy, 308
Recurrence after highly selective vagotomy should be treated by gastric resection (E), 312
Ear
Chondritis of the burned ear: a preventable complication, 257
Echinococcosis
Management of hepatic echinococcosis in Southern California, 110
Economics
Outpatient thyroidectomy: a feasibility study, 417
Significance of omental evisceration in abdominal stab wounds, 670

Supine exercise testing in the selection of suprainguinal versus infrainguinal bypass in patients with multisegmental arterial occlusive disease, 185
Extremities
Extraperitoneal iliac endarterectomy in the treatment of multilevel lower extremity arterial occlusive disease, 34
Eye
Carotid endarterectomy for amaurosis fugax without angiography, 172
Relationship of extracranial carotid occlusive disease and central retinal artery occlusion, 175
Familial polyposis
Results of surgical treatment for familial polyposis coli, 276
Unfamiliar aspects of familial polyposis coli, 81
Feet
Current state of extraanatomic bypasses, 202
Effect of inflow and outflow sites on the results of tibioperoneal vein grafts, 211
Efficacy of femorofemoral bypass for intermittent claudication. Clinical and hemodynamic assessment, 215
Salvage of ischemic diabetic feet. Role of transcutaneous oxygen mapping and multiple configurations of in situ bypass, 165
Fistula closure
Closure of bronchopleural fistulas by an omental pedicle flap, 40
Flaps
Cheek island flap for replacement of critical limited defects of the upper aerodigestive tract, 435
Closure of bronchopleural fistulas by an omental pedicle flap, 40
Craniofacial reconstruction after tumor resections using vascularized outer table calvarial bone flaps, 438
Major head and neck reconstruction using the deltopectoral flap. A 20 year experience, 430
Fluid resuscitation
Fluid resuscitation in thermally injured children, 664
Flush ligation
Flush ligation and compression sclerotherapy for the control of venous disease, 535
Frozen section
Diagnostic accuracy of fine-needle aspiration biopsy versus frozen section in solitary thyroid nodules, 411
Microscopic cut-through of cancer in the surgical treatment of squamous carcinoma of the tongue. Prognostic and therapeutic implications, 354
Fundoplasty
Valvuloplasty plus fundoplasty to prevent esophageal regurgitation in esophagogastrostomy after proximal gastrectomy, 314
Fundus
Valvuloplasty plus fundoplasty to prevent esophageal regurgitation in esophagogastrostomy after proximal gastrectomy, 314
Gallbladder
Demographic characteristics of gallbladder cancer in an area endemic for biliary calculi, 728
Gardner's syndrome
Unfamiliar aspects of familial polyposis coli, 81
Gastrectomy
Valvuloplasty plus fundoplasty to prevent esophageal regurgitation in esophagogastrostomy after proximal gastrectomy, 314
Gastric resection
Leaks and obstruction after gastric resection, 301
Recurrence after highly selective vagotomy should be treated by gastric resection (E), 312
Gastric stasis
Clinical results of reoperation after failed highly selective vagotomy, 308
Recurrence after highly selective vagotomy should be treated by gastric resection (E), 312
Gastroduodenostomy
Jejunal interposition gastroduodenostomy with automated suturing devices, 320
Gastroplasty
Vertical ring gastroplasty for morbid obesity. Five year experience with 1,463 patients, 713
Gastrostomy
Home support of patients with end-stage malignant bowel obstruction using hydration and venting gastrostomy, 100
Genetic disease
Results of surgical treatment for familial polyposis coli, 276
Genetic disorders
Occlusion of a hepatic arterial aneurysm with Gianturco coils in a patient with the Ehlers-Danlos syndrome (CR), 326
Gentamicin
Single dose prophylaxis in elective cholecystectomy. A prospective, double-blind randomized study, 513
Gianturco coils
Occlusion of a hepatic arterial aneurysm with Gianturco coils in a patient with the

Ehlers-Danlos syndrome (CR), 326
Glands
Adenoma weight: a predictor of transient hypocalcemia after parathyroidectomy, 611
Diagnostic accuracy of fine-needle aspiration biopsy versus frozen section in solitary thyroid nodules, 411
Early computerized tomography as a predictor of outcome in acute pancreatitis, 127
Extralaryngeal division of the recurrent laryngeal nerve. Report on 400 patients and the 721 nerves measured, 407
Outpatient thyroidectomy: a feasibility study, 417
Pancreatitis in teenagers, 133
Post-Thyroidectomy hypocalcemia. Incidence and risk factors, 606
Primary aldosteronism: changing concepts in diagnosis and management, 116
Gowns
Comparison of nonwoven and woven gown and drape fabric to prevent intraoperative wound contamination and postoperative infection, 505
Grafts
Comparison of autogenous fistula versus expanded polytetrafluoroethylene graft fistula for angioaccess in hemodialysis, 238
Cumulative patency and actual palliation in patients with claudication after aortofemoral bypass. Prospective long-term follow-up of 100 patients, 190
Current state of extraanatomic bypasses, 202
Effect of inflow and outflow sites on the results of tibioperoneal vein grafts, 211
Effect of the acute phase reaction on blood viscosity after infrainguinal arterial bypass, 158
Efficacy of femorofemoral bypass for intermittent claudication. Clinical and hemodynamic assessment, 215
Emergency portacaval H graft in alcoholic cirrhotic patients: influence of shunt diameter on clinical outcome, 290
Factors affecting initial and 6 month patency rates after intraarterial thrombolysis with high-dose urokinase, 709
General surgical procedures in renal allograft recipients, 717
Immunologic effects of blood transfusion upon renal transplantation, tumor operations, and bacterial infections, 329
Infrapopliteal bypasses to heavily calcified rock-like arteries. Management and results, 220
Liver transplantation at UCLA. Program development, organization, initiation, and early results, 75
Saphenous alternative: preferential use of superficial femoral and popliteal veins as femoropopliteal bypass grafts, 231
Staged infrainguinal revascularization: initial prosthetic above-knee bypass followed by a distal vein bypass for recurrent ischemia. A valid concept for extending limb salvage? 224
Granulocytopenia
Managing the granulocytopenic patient with acute perianal inflammatory disease, 510
Graves' disease
Post-Thyroidectomy hypocalcemia. Incidence and risk factors, 606
Groin
Groin dissection in malignant melanoma, 491, 495
Gunshot wounds
Penetrating wounds to the anterior chest. Analysis of thoracotomy and laparotomy, 649
Single agent cephalosporin prophylaxis for penetrating abdominal trauma. Results and comment on the emergence of the enterococcus, 674

Sugiura procedure outside Japan. The Mexican experience, 539
Surgical infection
A randomized, double-blind trial of single dose piperacillin versus multidose cefoxitin in alimentary tract operations, 517
Comparison of nonwoven and woven gown and drape fabric to prevent intraoperative wound contamination and postoperative infection, 505
Newer antibiotics for the surgeon (E), 577
Postsplenectomy infection in patients with chronic leukemia, 583
Preoperative irradiation potentiation with cisplatin: effect on rate of wound infection, 446
Single dose prophylaxis in elective cholecystectomy. A prospective, double-blind randomized study, 513
Single-dose systemic antibiotic prophylaxis of surgical wound infections, 552
Surgical wounds
A randomized, double-blind trial of single dose piperacillin versus multidose cefoxitin in alimentary tract operations, 517
Comparison of nonwoven and woven gown and drape fabric to prevent

intraoperative wound contamination and postoperative infection, 505
Newer antibiotics for the surgeon (E), 577
Postsplenectomy infection in patients with chronic leukemia, 583
Preoperative irradiation potentiation with cisplatin: effect on rate of wound infection, 446
Single dose prophylaxis in elective cholecystectomy. A prospective, double-blind randomized study, 513
Single-dose systemic antibiotic prophylaxis of surgical wound infections, 552

Sutures
Jejunal interposition gastroduodenostomy with automated suturing devices, 320
Polydioxanone in digestive surgery. An experimental study, 268

Techniques
A new surgical approach for control of pain in chronic pancreatitis: complete denervation of the pancreas, 549
Arteriography performed in the emergency center, 323
Cheek island flap for replacement of critical limited defects of the upper aerodigestive tract, 435
Jejunal interposition gastroduodenostomy with automated suturing devices, 320
New method of bowel stoma formation, 545
Technique for placement of an implantable venous access system, 543
Valvuloplasty plus fundoplasty to prevent esophageal regurgitation in esophagogastrostomy after proximal gastrectomy, 314

Teenagers
Pancreatitis in teenagers, 133

Terminal care
Home support of patients with end-stage malignant bowel obstruction using hydration and venting gastrostomy, 100

Thermal injury
Fluid resuscitation in thermally injured children, 664

Thoracotomy
Liberal use of emergency center thoracotomy, 654
Penetrating wounds to the anterior chest. Analysis of thoracotomy and laparotomy, 649

Thorax
Options in the management of perforations of the esophagus, 62

Thrombolysis
Factors affecting initial and 6 month patency rates after intraarterial thrombolysis with high-dose urokinase, 709

Thrombolytic therapy
Localized intraarterial streptokinase therapy, 252

Thrombosis
Effort-related axillosubclavian vein thrombosis. A new theory of pathogenesis and a plea for direct surgical intervention, 57
Localized intraarterial streptokinase therapy, 252
Pathogenesis determines late morbidity of axillosubclavian vein thrombosis, 179

Thrombus
Factors affecting initial and 6 month patency rates after intraarterial thrombolysis with high-dose urokinase, 709

Thyroglossal duct
Is the treatment for thyroglossal duct cysts too extensive? 602

Thyroid gland
Diagnostic accuracy of fine-needle aspiration biopsy versus frozen section in solitary thyroid nodules, 411
Extralaryngeal division of the recurrent laryngeal nerve. Report on 400 patients and the 721 nerves measured, 407
Outpatient thyroidectomy: a feasibility study, 417
Post-Thyroidectomy hypocalcemia. Incidence and risk factors, 606

Tongue
Flow cytometric analysis of DNA content as a prognostic indicator in squamous cell carcinoma of the tongue, 393
Microscopic cut-through of cancer in the surgical treatment of squamous carcinoma of the tongue. Prognostic and therapeutic implications, 354
Predictive value of tumor thickness in squamous carcinoma confined to the tongue and floor of the mouth, 345

Trachea
Primary tracheoesophageal puncture for voice restoration, 464

Tracheoesophageal puncture
Primary tracheoesophageal puncture for voice restoration, 464

Transfusion
Blood transfusions and surgery for cancer (E), 337
Cell-saver and autologous transfusion: an underutilized resource in vascular surgery, 105
Immunologic effects of blood transfusion upon renal transplantation, tumor operations, and bacterial infections, 329
Perioperative blood transfusion is associated with infectious complications after colorectal cancer operations, 479
Underutilization of autologous blood donation among eligible elective surgical patients, 483, 485

Transplantation
General surgical procedures in renal allograft recipients, 717
Immunologic effects of blood transfusion upon renal transplantation, tumor operations, and bacterial infections, 329

Transplantation program
Liver transplantation at UCLA. Program development, organization, initiation, and early results, 75

Trauma
Amputation after extremity injury, 260
Arteriography performed in the emergency center, 323
Chondritis of the burned ear: a preventable complication, 257
Fluid resuscitation in thermally injured children, 664
Guidelines for weaning from positive end-expiratory pressure in ventilated patients, 687
Liberal use of emergency center thoracotomy, 654
Penetrating wounds to the anterior chest. Analysis of thoracotomy and laparotomy, 649
Role of routine emergency cervical radiography in head trauma, 643
Significance of omental evisceration in abdominal stab wounds, 670
Single agent cephalosporin prophylaxis for penetrating abdominal trauma. Results and comment on the emergence of the enterococcus, 674
Traumatic rupture of the aorta: still a lethal injury, 660

Trauma score
Evaluation of injury mechanism as a criterion in trauma triage, 6

Trauma system
Evaluation of injury mechanism as a criterion in trauma triage, 6
MASH, military medicine, and beyond: mainstream or tributary? (E), 2

Triage
Evaluation of injury mechanism as a criterion in trauma triage, 6

Tubes
The many uses of the U tube, 616

Tumors
Blood transfusions and surgery for cancer (E), 337
Craniofacial reconstruction after tumor resections using vascularized outer table calvarial bone flaps, 438
Facial nerve sacrifice and tumor recurrence in primary and recurrent benign parotid tumors, 442
Immunologic effects of blood transfusion upon renal transplantation, tumor operations, and bacterial infections, 329
Predictive value of tumor thickness in squamous carcinoma confined to the tongue and floor of the mouth, 345
Relation of thickness of floor of mouth stage I and II cancers to regional metastasis, 351
Significance of ploidy in laryngeal cancer, 396
Unfamiliar aspects of familial polyposis coli, 81

Ulcer
Clinical results of reoperation after failed highly selective vagotomy, 308
Free colonic perforation without dilatation in ulcerative colitis, 272
Leaks and obstruction after gastric resection, 301
Recurrence after highly selective vagotomy should be treated by gastric resection (E), 312

Ultrasonography
Beneficial use of an evocative test in chronic relapsing pancreatitis in children, 628
Effect of quantitated stenoses on arterial sound spectrum analysis, 196
Initial experience comparing B-mode imaging and venography of the saphenous vein before in situ bypass, 206

Upper extremities
Amputation after extremity injury, 260
Ischemia of the upper extremity: significance of proximal arterial disease, 122
Pathogenesis determines late morbidity of axillosubclavian vein thrombosis, 179

Urethra
Single-dose systemic antibiotic prophylaxis of surgical wound infections, 552

Urokinase
Factors affecting initial and 6 month patency rates after intraarterial thrombolysis with high-dose urokinase, 709

U tube
The many uses of the U tube, 616

Vagotomy
Clinical results of reoperation after failed highly selective vagotomy, 308
Recurrence after highly selective vagotomy should be treated by gastric resection (E), 312

Valves
Valvuloplasty plus fundoplasty to prevent esophageal regurgitation in esophagogastrostomy after proximal gastrectomy, 314

Valvuloplasty
Valvuloplasty plus fundoplasty to prevent

esophageal regurgitation in esophagogastrostomy after proximal gastrectomy, 314
Varicose veins
Flush ligation and compression sclerotherapy for the control of venous disease, 535
Vascular malformations
Surgical management of vascular malformations of the head and neck, 424
Vascular surgery
Cell-saver and autologous transfusion: an underutilized resource in vascular surgery, 105
Society for Clinical Vascular Surgery. A review and preview (E), 154
Veins
Cell-saver and autologous transfusion: an underutilized resource in vascular surgery, 105
Direct portacaval anastomoses are safe and effective in patients with previous abdominal operations, 722
Effect of inflow and outflow sites on the results of tibioperoneal vein grafts, 211
Effort-related axillosubclavian vein thrombosis. A new theory of pathogenesis and a plea for direct surgical intervention, 57
Flush ligation and compression sclerotherapy for the control of venous disease, 535
Initial experience comparing B-mode imaging and venography of the saphenous vein before in situ bypass, 206
Pathogenesis determines late morbidity of axillosubclavian vein thrombosis, 179
Saphenous alternative: preferential use of superficial femoral and popliteal veins as femoropopliteal bypass grafts, 231
Surgical management of vascular malformations of the head and neck, 424
Technique for placement of an implantable venous access system, 543
Video angioscopy as an alternative to intraoperative arteriography, 139
Vena cava
Diagnosis and treatment of the inferior vena cava syndrome in advanced malignant disease, 70
Direct portacaval anastomoses are safe and effective in patients with previous abdominal operations, 722
Venography
Initial experience comparing B-mode imaging and venography of the saphenous vein before in situ bypass, 206
Venous access system
Technique for placement of an implantable venous access system, 543
Ventilation, mechanical
Guidelines for weaning from positive end-expiratory pressure in ventilated patients, 687
Voice restoration
Primary tracheoesophageal puncture for voice restoration, 464
